

Odd One Out

Let's start the lesson with a game!

In this game of Odd One Out, you will need to choose your own answer, then show me which one you think is the odd one out by using your fingers – option one, two, three or four.

You might be chosen to explain your answer and say why you think it is the odd one out.

Odd One Out

Which is the odd one out?

1

1. orange juice

2. coffee

3. lemonade

4. milk

Odd One Out

Which is the odd one out?

1

1. orange juice

2. coffee

3. lemonade

4. milk

Odd One Out

Which is the odd one out?

1. energy drink

2. cola

3. tea

4. hot chocolate

Odd One Out

5

Which is the odd one out?

1. chewing gum

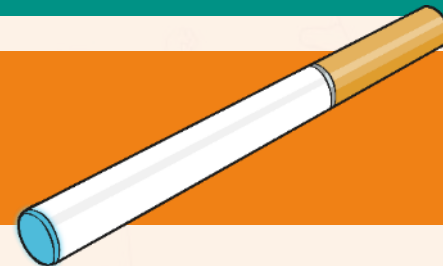

2. cigarette

3. chocolate

4. e-cigarette

Odd One Out

5

Which is the odd one out?

1. chewing gum

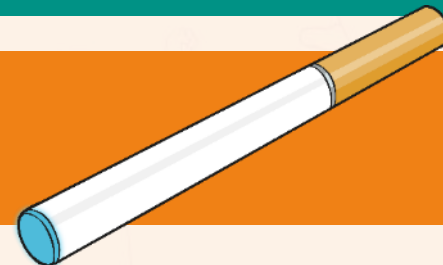

2. cigarette

3. chocolate

4. e-cigarette

Odd One Out

6

Which is the odd one out?

1. soda

2. wine

3. cider

4. beer

Odd One Out

6

Which is the odd one out?

1. soda

2. wine

3. cider

4. beer

Odd One Out

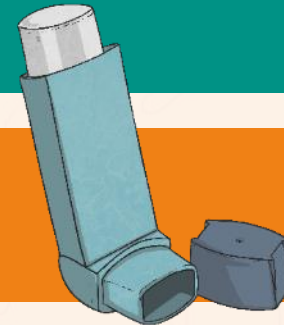

7

Which is the odd one out?

1. insulin

2. salbutamol

3. saccharin

4. antihistamine

Odd One Out

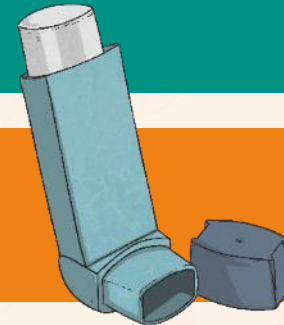

7

Which is the odd one out?

1. insulin

2. salbutamol

3. saccharin

4. antihistamine

Odd One Out

Some of those were tricky!

Finally, **saccharin** is the odd one out because it is not a drug; it is a sugar substitute. All the others are drugs.
